11 March 1995
Belgian
Unmarried
Driver's license: B

Objective

To work as an electronic engineer in a stimulating and challenging environment, where I can make optimal use of my talents and contribute to the success of the company, while experiencing great career opportunities, and where I can improve my skills.

Experience

August 2017 – Present Teal Partners
Partner (Software development)

Full-stack software development using: Angular, C#, Entity Framework etc.

August 2016 Orange Belgium
Web application development

“Stijn has developed a web application to generate and automate the configuration of network equipment. He has worked for 1 month in our team as a jobstudent and although the project was complex and related to a specific technology he was able to deliver a fully functional application with complete documentation. He is very professional, skilled and creative in finding solutions and solving problems. Stijn is a very good team player and it was a pleasure to work with him.”

Maarten Wallraf — Senior Network consultant

August 2015 KBC Bank & Insurance
Mail office and archive

2010 - 2013 AnMa (Hardware Company)
Building and soldering of PCB's.
